Note from Paul Sutcliffe in email to Ian Hill, July 2017

Ian,

Attached are the results of the 1973 City-Bay.

As noted at the top the finish system failed to the extent that not all finishers were recorded. I remember the finish vividly. The finish line was at the end of Jetty Road in front of the Town Hall which would be about where the pedestrian crossing at the tram line is today. They had a rows of tables with people recording times on paper slips. You then had to take the slip to get your result recorded on time cards (well that's what I remember). The problem was that it worked well for the front runners as the time slip recorder could see the runner finish record the time and get the slip to them. Later on this became impossible and people were getting their finish times recorded when they got to the tables (past the finish line). Later on when the masses arrived (i.e. me!) the ques were so long that you had to stop before the finish line! In the end other were wrong. The best example is that W Hall (WD) is listed as finishing third last! That meant that the Sutcliffe family were listed as winning the family four. However, later we were told that the Hall brothers had won - not surprisingly.

How times have changed.

Derek Clayton ran 34:05 and David Fitzsimons 34:08.

TEAM PRIZE WAS NEAR!

Adelaide's College of Advanced Education won the outright team trophy in The News City-Bay run.

The winning team, which had Commonwealth Games triathlete Gary Zeuner first across the line, had all its members home in 43 min. 50 sec.

The Sydney team entered by Coca-Cola was close on their heels, its last runner completing the course in 44.30

The Coca-Cola team is the open division winner.

Trophy and medallion winners will receive an invitation to be present at the Olympic Sports Field on Saturday November 17 to receive their awards.

The complete list of trophy and medallion winners are:

Here is the complete finishing order of all runners in the first News City-Bay run held on Sunday.

Nearly 1,600 entries were received for the run.

However, it is obvious from the total time cards collected at the finish that many competitors failed to hand in their time slips.

As this is the only record

of competitors having finished the event, it has not been possible to allocate these people a final placing.

The full finishing order is listed below in groupings of 50:
