## HOW THEY FINISHED

The News today publishes the complete finishing order of runners in Sunday's City-Bay Fun Run.

This is the second successive year The News City-Bay has been held.

There were several changes to this year's team and group compositions.

But the aim was still achieved—to make the City-Bay a fun affair for everyone in the family.

The results were processed by the Key Punch Centre, Kent Town, on the Simpson-Pope computer.

After team and group events, the full finishing order is listed in groupings of 50, with the time taken after each runner's name.
